

## THE BETTER BACKUP PLAN FOR YOUR HOME AND HOME OFFICE

Carbonite Online Backup provides extra protection for your files and allows you to get those files back in the event of a data disaster—saving you time, money and stress. Since 2005, Carbonite has backed up over 300 billion files and today backs up more than 350 million files each day! Most importantly, Carbonite has restored over 20 billion files that would have been lost forever.

### HIGHLIGHTS

#### Set it & forget it

Carbonite backs up your files automatically in the background whenever you're connected to the internet—so you never have to remember to back up.

#### Secure transmission

Carbonite uses the same encryption technology used in online banking and e-commerce transactions.

#### Safe offsite storage

Your backed up files are stored in one of Carbonite's highly secure state-of-the-art data centers—protected from theft, fire, spills and potential home or home office disasters.

#### Easy file recovery

If anything happens to any file, Carbonite finds it in your backup and puts it back in its original location on your computer—in just a few, simple steps.

#### Anytime, Anywhere Access

Users can access their backed up files from any computer connected to the Internet—or even from their iPhone®, Andriod™ or BlackBerry® smartphones.

## THE PLANS

Carbonite Home offers three different plans to choose from—**Home**, **HomePlus** and **HomePremier**. Each of these plans cater to a specific set of backup needs, so you can easily find the plan that's right for you. All Carbonite Home subscribers receive an unlimited amount of storage space with their subscriptions.

### **Home** \$59.99

With the **Home** plan, you'll enjoy all the essentials of unlimited online backup. The irreplaceable files on your computer—like photos, documents and music—will be backed up automatically, and accessible at anytime, from any computer or smartphone.

### **HomePlus** \$99.99

The **HomePlus** plan gives you all the benefits of our **Home** plan, PLUS additional features that make your backup even more complete. With **HomePlus**, you can include your external hard drive in your online backup, so you can rest easy knowing that all of your important files are backed up safely, offsite. In addition, you'll also get Mirror Image backup, which creates a local backup of your entire hard drive—including your operating system and software programs.

### **HomePremier** \$149.99

**HomePremier** is the most comprehensive backup solution we offer. In addition to all the features of **Home** and **HomePlus**, you'll also get automatic backup of your video files (instead of having to add them to your backup manually). You'll also have the option to use Courier Recovery—a Carbonite service reserved exclusively for **HomePremier** customers. Courier Recovery allows you to have a copy of your entire backup shipped directly to you.

## SYSTEM REQUIREMENTS

### **Home**

XP, Vista, Windows 7, Windows 8  
Intel-based Macs with OS X, 10.6, 10.7 or 10.8
