

GUARDIAN ALERT 911™

Installs in minutes. No tools required.

Talk Directly through Your Pendant to a 911 Emergency Operator at the Push of a Button.

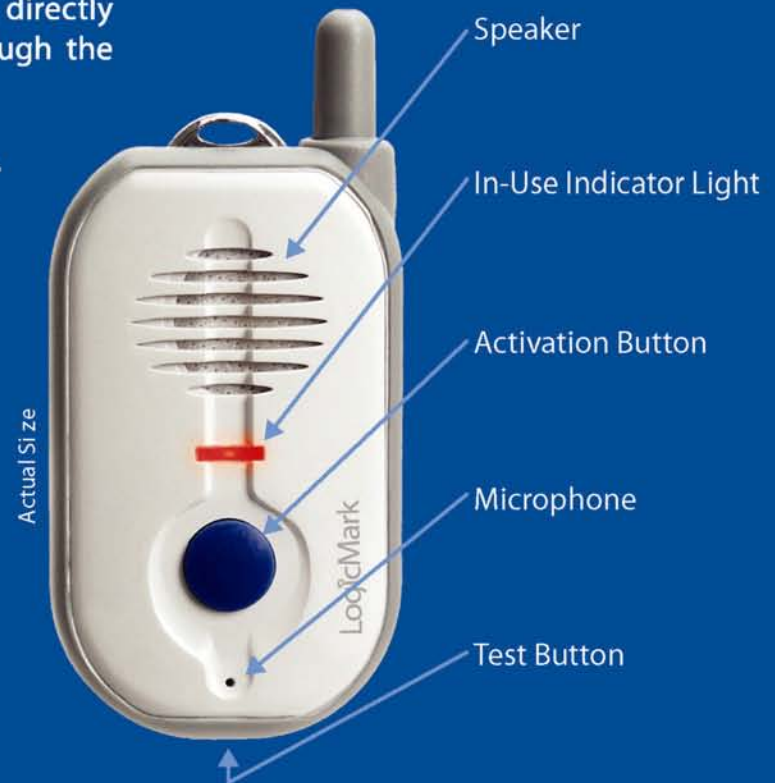

- Guardian Alert 911 enables you to call "911" in an emergency situation, (accident, fall, illness, or danger) and **speak directly to the emergency operator**. You talk directly to the emergency operator, not to a call center.
- Guardian Alert 911 requires **no monthly subscription or service fee**. Guardian Alert 911 works just like a cordless phone on any standard phone line with 911 service and tone dialing.
- Guardian Alert 911 can be **comfortably worn around the neck, clipped on a belt, or carried in a pocket at all times**. To avoid accidental activation, the activation button is recessed and must be depressed for a minimum of 2 seconds to turn the phone on.

How It Works:

- In an emergency, press the activation button on the Guardian Alert 911. The pendant immediately calls 911. Within seconds, you speak directly with the 911 operator through the Guardian Alert 911.
- **No charging necessary.** Replaceable alkaline battery (included) lasts 1 year in standby or for up to 30 minutes of talk time.

Optional Accessory:

- #30912 Battery Backup - Provides up to 24 hours of standby power to the Guardian Alert 911 base station during a power outage.

NO MONTHLY FEES!

Additional Features:

- Pendant is **splash resistant**.
- System test and battery **test functions**.
- **Voice confirmations** during dialing, shutdown, system test, and battery test.
- **Included duplex jack** allows a second phone to be used on the same phone outlet.
- **Auto power off** after 4 minutes of inactivity.

Trilingual (English, French, Spanish)
retail packaging.
